LIGHTING

www.uynilighting.com

Flameless candles are made from wax and look and feel real, but they don't mess or release any toxins.

The soft touch of Uyuni

The crystal clear night skies of South America's Uyuni salt flats were the inspiration behind the brilliant Uyuni LED candles, as the designers dared to dream of bringing the allure of these distant galaxies into homes around the world.

The night sky above the isolated salt flats is crystal clear owing to the clean air and the absence of light pollution, and this innovative range of candles has been designed to

ensure clean, smoke free air and a delightful ambience in any home.

The real wax surface of Uyuni Candles adds to the candlelight ambience, but without any of the harmful chemicals that are released by regular wax candles.

The gently flickering candlelight illuminates any dark space to create a restful and inviting ambience.

Candles offer the most soothing, relaxing and romantic of lighting, and Uyuni Candles have made it safe to enjoy candlelight anywhere, any time in your home.

The perfect setting

This beautiful range of flameless candles offers a limitless array of groupings to suit any room, setting or occasion.

The beauty of Uyuni Candles is that they can be turned on and off or dimmed by remote control, with timer options of 4, 6, 8 or 10 hours.

There is also a 6-hour manual timer switch under each candle to control your lighting and to conserve battery life.

An added bonus is that Uyuni Candles are safe to carry as they aren't hot to the touch and the 'flame' can't burn you. Safety for your family is assured as Uyuni Candles can be left unattended as they do not present a fire hazard, and are safe around children and pets. Standard battery safety guidelines still apply.

Choose your individual style

The Taper Candle stands tall and stately, with its floating, flickering wick creating the illusion of true candlelight. A beautiful candle for reading, the Taper is also perfect for mini task lighting next to a bed or for carrying to the bathroom or kitchen at night.

The Pillar Candle has the aesthetic beauty of a traditional candle. Striking standing on its own, the Pillar also works wonderfully in a grouping of different sized Pillar Candles or mixed with all the other candles in the Uyuni range. A complement to the collection is the ivory Pillar Candles with its raised shoulder

(pictured right). This design touch gives the candle a more realistic look, as if lit and enjoyed previously.

The Tealight Candle stands alone as a beautiful pinprick of light to softly brighten a dark corner of a room or to accent a stairwell or corridor. When grouped the Tealight creates a beautiful, flickering display, either with other tealights, in a circle around a Pillar Candle or around a grouping of Pillars. The Tealight is available with the Uyuni remote ready function, and its LED light sets the ambience beautifully.

Affordable
ambience

Uyuni Candles have provided hoteliers and restaurateurs with substantial cost savings compared to using traditional candles.

The cost of replacing wax candles every day is high, while the waxy mess created by candles burning down adds to the workload of hotel or restaurant staff.

Uyuni features

- Dimmable
- Unscented
- 3D flame
- Warm-white LEDs
- 3 brightness levels*
- 4 | 6 | 8 | 10 hour-timer*
- On | off control of all candles at once*

- Pillars using C batteries glow for over 1000 hours

*The Standard Tealight excludes remote control & timer features.

Safe as houses

Get all of the flames with none of the burns. Uyuni Lighting's unique candles are safe for children to use. Whether it's an indoor sleepover, a picnic under the trees or an outdoor adventure, you can now give your child an authentic experience without ever having to worry about their safety.

Create an atmosphere that is fun, safe and let's their imagination run wild.

See the festive season in a new light

Enhance the holidays with our beautiful range of Uyuni flameless candles. Choose from an assortment of festive colours (Carmine Red, Metallic Gold and Metallic Silver) as well as our naturally sophisticated palette of Forest Black and Sandstone. These new pillars have a realistic rustic texture, adding even more craftsmanship to an already exceptional handmade product.

You can now give your Christmas tree the Uyuni lift with our brand new slim flameless tapercandles and gold clip candleholders.

To ensure our tapers stand proudly in place on your tree, we've added strong alligator-style gold coloured clips as a secure base for each taper.
